ATF

Ornaments and Typographic Accessories

do away with expensive art work, eliminate the necessity of having electros made . . . and what's more, most designs shown were created by some of the world's finest graphic artists. By using ATF cuts, their services are at your disposal . . . at extremely low cost!

ATF Typographic Accessories are precision cast of foundry metal and possess all the printing and wearing qualities of ATF type. They're easy to print from, too!

All accessories shown in this catalog are sold in convenient sized fonts or Handypack assortments at reasonable prices.

All prices listed are for complete fonts. Fonts contain the entire assortment illustrated and the small figure frequently shown under a cut indicates how many of that particular design are contained in the font.

We regret that we are unable to sell single cuts, initials, ornaments or other designs illustrated. However, any character or design in this catalog may be purchased as sorts, in a minimum quantity of one 6" line per character. Prices for sorts are shown in table E-1 of our Descriptive Index of type faces.

For best service, send your orders for type and accessories to the ATF type dealer in your area.

ALPHA-BLOX

(Linear and reverse.)

What are Alpha-Blox?

Alpha-Blox are types on whose printing surfaces appear a variety of straight sections, curves, borders, ornaments, etc. For instance

Set in building-block fashion, they form the letters of the alphabet, figures, borders, ornaments, etc. For instance two each of these three precision cast units  can be made up quickly into the letter 

Substituting a few elements  affords a new range of designs.

The two styles mode, linear  and reverse , are cut to register.

They may also be used this way  or in two colors .

RUTHERFORD
RIGGS

STARK

United States Flag Typecuts

Figure under each unit shows how many of each a font contains

Attention is called to the fact that the laws of the United States and many individual states restrict or prohibit the use of the United States flag in advertising and business printing. All typecuts or type representations of the flag that are made, sold or offered for sale by American Type Founders are made and sold on the condition that they are not to be used in any manner that is prohibited by these laws.

Ombree Ornaments

Ombree Ornaments enable the creative printer to turn out a distinctive piece of printing without extra cost for art work and engravings.

Hollywood Combination Initials

Outline Characters

Tint Characters

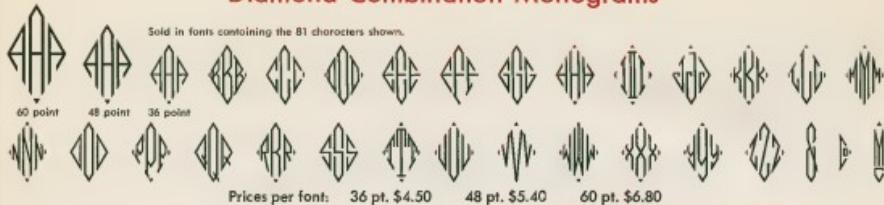

Fonts contain three characters of every letter in the alphabet and on Mc and Mac. The same character is cast in three different positions on the type body. With the exception of M, W, Mc, and Mac (cast 12 point set), all characters are cast 8 point set and require no justification. The M, W, Mc and Mac, when used with 8 point set characters, require slight justification in order to give the desired slope. Sold in complete fonts of outline or tint characters as described.

Prices per font: Outline \$10.10
Tint . . . \$10.10

Diamond Combination Monograms

Elite Monograms

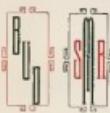

Fonts contain one each of the larger letters A to Z and two each of the smaller letters. The larger letters are cast recessed at top and bottom to permit the insertion of the small characters without over justification. Sold in complete fonts containing one each of the 78 characters shown.

Price per font: \$11.80

Broadway Monograms

Fifth Avenue Monograms and Frames

Fonts of Intrepids contain three of each letter cast on 54 point body, and three of each letter cast on 24 point body. The M and W are 8 points wide; all other characters are 6 points wide. Sold in fonts containing 156 characters.

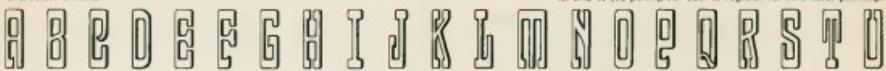

Frames contain one on 72 point body in two measured patterns. The seven widths accommodate any two- or three-letter combination. Sold in fonts containing one pair of each of the 7 styles shown on right.

ATF Adcuts and Logotypes

Print Better—Last Longer—Cost Less—Than ELECTROS

Company or personal signatures, trade-marks, emblems, symbols, designs can be cast in type in hard, long-wearing, foundry type metal. These are ADCUTS. Combinations of letters, points or figures can be set up in any ATF type and cast on single-piece bodies. These are LOGOTYPES. They may be firm names and addresses, heads on office or factory forms, imprints, envelope corner cards. They prevent errors on repeated use, reduce costs of composition and assure uniformity.

ADCUTS and LOGOTYPES can be cast in any desired number, and additional castings made any

time from the same matrices, at *less than the cost of electrotypes*. They print sharp and clean. The finest of lines are free from undercutting; counters are deep. They need no shoulder for tacking; can be trimmed flush with the design to exact point sizes that line up with type. They are the only practical means of dropping snugly into the body text company or product names in their characteristic styles.

Send your ATF type dealer a sketch and your specifications for a particular job and let him submit quotation and complete information.
